

BRMS Retiree Billing & Administration

BRMS is focused exclusively on providing easy-to-use, fully compliant services to employers of all sizes.

Retiree Billing

Retiree Billing is an employee benefits administration service designed to complement your overall healthcare benefits strategy. Retiree Billing ensures accuracy and timeliness and lowers costs by handling enrollment and eligibility of retirees. The service bills the retirees for their medical, Medicare supplement, life, dental, and/or vision premiums and pays the premium to the respective carrier, effectively reducing demands on your Human Resources staff and improving your bottom line.

Retiree Billing Services

- Enrollment assistance and materials, including open enrollment services
- Complete record keeping
- Online activity reporting available 24/7
- Retiree assistance—reducing the need for retirees to contact the employer
- Access to experienced employee benefits professionals
- Helpful support and guidance
- Complete review of company retiree policies
- Complete management of plan eligibility, including enrollment, termination, and status changes
- Multiple methods available for collecting premiums from the retiree
- Seamless coordination with insurance carriers, to include eligibility, premium collection, and premium payment
- Guaranteed privacy of personal health information
- All inclusive fees: no additional charges or hidden fees
- Billing, collection, and remittance of premiums to you or the carrier depending on Plan design
