

BENEFIT & RISK MANAGEMENT SERVICES LAUNCHES NEW WEB SITE

SACRAMENTO, CA, June 15, 2006 — Benefit & Risk Management Services, a leading national employee benefit administration and healthcare risk management TPA, is proud to announce the launch of their new web site on www.brmsonline.com.

The new Web site illustrates how BRMS helps employers contain healthcare costs with end-to-end employee benefits solutions.

Improvements have been made to navigation, design and content with complete descriptions of the vast array of services BRMS provides: Risk Management, Vbas® Online Benefit Administration and Third Party Administration.

“We have outlined the distinguishing benefits of partnering with BRMS,” says CEO, Matt Schafer. “What sets us apart is our focus on building trusted & valued relationships with each and every client, our ability to service their employee benefit program from beginning to end with our suite of services, our exclusive technology platform that centralizes our clients’ data and the exceptional people who work for, and with, BRMS.”

Notable content changes include:

- BRMS’ unique service model in which all clients are supported by an Account Management Team that includes a high-level BRMS executive, an assigned Account Executive and a team of Account Representatives to provide prompt and personal service.
- A detailed description of available Risk Management services, such as consultation on self-funding, stop-loss insurance, in-house medical management and utilization review, data analysis, and network re-pricing to reduce and control healthcare costs.

- A new online flash demonstration of BRMS' exclusive Virtual Benefits Administration System (Vbas®). This quick six minute demo shows employers how they can realize long-term ROI by reducing the time and costs associated with daily employee benefit administration online.
- A list of current carrier partners who have authorized Electronic Data Interchange (EDI) with the Virtual Benefits Administration System (Vbas®).
- In order to improve our relationships and efficiencies with brokers, promotional materials are posted online for quick and easy reference and downloads. If you are a broker partner, please contact xuev@brmsonline.com to receive your user name and password. If you would like more information on becoming a broker partner, please contact pauls@brmsonline.com
- Case studies highlighting the cost and time savings BRMS has generated for clients.

As the year unfolds, BRMS will continue to build additional informational services into the site, including educational white papers to help employers identify tactical methods to reduce healthcare costs, such as The BRMS Approach to Health Care, explaining the benefits of self-funding and developing a strategic approach to outline your benefits program.
